

## **Now Available! 1964 Galaxie Lower Rear Quarter Repair Panel Left and Right Sides.**

The new 1964 Galaxie Quarter Bottom Rear is made to repair the area of the rear quarter behind the rear wheel. It goes from the wheel well opening back to the bumper and about 14 inches high from the bottom of the quarter at the front and 12 inches high at the rear. The panel is 45 inches in length. These panels are available in both the left and right sides, and are stamped from 20 guage steel.
